Dear colleagues,

We are proud to announce the 8th Northern European Conference on Travel Medicine (NECTM8), will take place from 3 to 5 June 2020 in Rotterdam, The Netherlands.

Former successful conferences show it is the perfect opportunity for travel medicine professionals to learn, interact and get inspired. In our scientific program we will concentrate on the most recent developments in the multi-disciplinary field of travel medicine inspired by the maritime conference theme. The Scientific Committee, is planning for three parallel session tracks, incorporating a dedicated nursing track and a general practice track.

We look very much forward to be inspired, engaged and educated together with you all at NECTM8 in Rotterdam!
